# -CONSTITUTION-

## Dear all!

“L'État, c'est moi!” – The State, it is I. So exclaimed one great monarch. Who creates the state? The one who is brave and who has knowledge. I am brave and I will have knowledge. Where are the borders of my state? The capital is here, and the borders are where you come from. The more of you come, the bigger my state will be. I invite you all to come. You too invite others for we are making our state greater. All citizens have equal rights, not before the law because we will not have many laws except the statute. Equal rights mean that we all get to eat and drink to our heart's content, that we feel at home, walk, rest, talk, and that we regulate our rights ourselves. Are we going to have a ministry and a government? We are, of course, and the job competition has already commenced. The first minister will be the one who spends the most days in this area and the one who spends the most days in this beautiful facility. The second minister will be in charge of promoting the state and

ensuring the arrival of as many guests as possible. I hold the Ministry of Treasury. The police? What is it, do we need it? In the realm of freedom, peace and prosperity, the police are not needed. We all are the police. Because if there are the official police, we have to officially report each other. And what if someone comes with someone else's wife? She will always be his here, and we will not ask anyone whose wife she is, unless the right guy appears. These are emergencies, and we will not anticipate them.

How are we to recognize one another in the whole wide world? Let our password be Hajdučka Vrlet, and the citizenship record book will be in this restaurant. Whoever wants to, let them enroll, and those who do not want shall still remain citizens with all their rights. The obligations of citizens are limited to one thing – to freely declare that they are citizens of this state. Elections? Let these be extraordinary, and we will have the regular ones when everyone declares that we need them. Thus, the Ruler suggests that on the eve of the

elections, we all go to our tables and have a pleasant refreshment, a good drink, and a toast to the President of the state and his ministers. We will adopt the flag and anthem at the first session of the Government. We will not allow Paddy Ashdown to define our flag and anthem! We are of one mind and we know what we want. Our politicians should learn from us, and maybe relinquish their grasp of the whole of Bosnia and Herzegovina to us.

Statehood Day will be 5 June, on which every year we will summarize our achievements and determine how far we have come with the borders. On Statehood Day, we will proclaim the best citizen and the best minister. They will also receive an award for their work in the state, which will consist of a free stay in the capital. All proposals should be submitted to the Ministry of Information, which is located at the reception desk of the state court.

Now that we formed the state and laid the foundations of the broadest democracy, CHEERS!
